

# Wonderful!

new mono command system

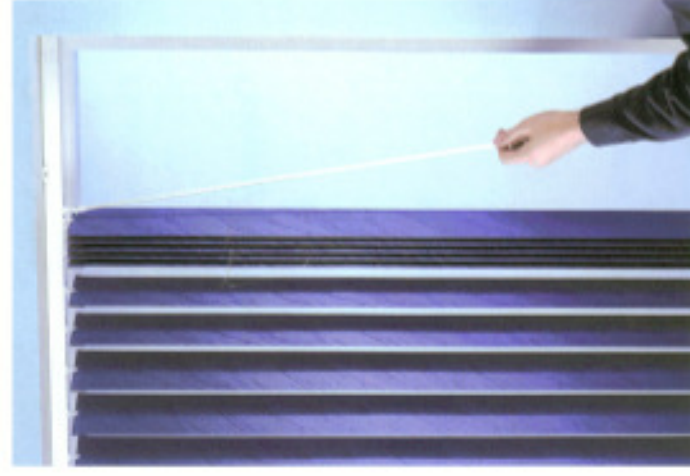

The Mono Command vertical blind system is the latest innovation to join Louvolite's market leading product range. Mono Command, as the name implies, has been designed to allow the operator to open, close and adjust the louvres of the vertical window blind through a single process and is another development to add to Louvolite's range of child safety products.

- Stylish and robust operating system.
- Easy to install, easy to operate!
- Absence of chains and cords can reduce blind assembly times significantly.
- Will fit both Louvolite's market leading Slimline and Maestro® headrails.
- Mono Command conversion kit is competitively priced and utilises all standard components direct from Louvolite.
- Choice of wand lengths - 800mm and 1200mm.
