

Solo Manufacturing LTD Environmental Policy

As one of the North East's leading manufacturer and supplier of window blinds, Solo Manufacturing is involved at every stage of the construction lifecycle, including procurement, manufacture, installation, maintenance and operation window blinds of support services. Solo Manufacturing's drive towards sustainability reflects its key values of openness, mutual dependency, collaboration, sustainable profitable growth, professional delivery and innovation.

This policy supports Solo Manufacturing's Sustainability policy and describes our responsibility towards the environment.

It is our intent to effectively manage and improve our environmental performance and minimise the impacts of our business on the environment. We are committed to do this through the following:

1. Driving continual environmental improvement by ensuring effective management of our environmental impacts and striving towards implementing Environmental Management Systems in compliance with EN ISO 14001:2004.
2. Developing objectives, supported by targets, to manage potentially significant environmental aspects.
3. Preventing pollution and reducing any adverse impact of the Group's operations on the environment.
4. Developing meaningful performance indicators to measure resource use, waste and emissions to demonstrate efficient use of resources and as well as promote environmental best practice.
5. Complying with applicable environmental legislation and standards and other requirements associated with the industry sectors in which we operate.
6. Training of staff, suppliers and contractors to enhance awareness of relevant environmental matters.
7. Working in partnership with our customers and supply chain to promote best practice environmental management techniques to deliver high-quality products and services.
8. Gathering information on environmental performance, gaining third party endorsement of published performance and benchmarking this performance against others.

Delivery:

The Business Unit Managing Directors will be responsible for implementation of this policy. Successful delivery of the policy involves generating a culture that actively encourages best environmental practices and ensure the real involvement of all our people, our supply chain and stakeholders.

Policy review:

This policy has immediate effect and replaces all previous versions.

This policy will be reviewed periodically and amended as necessary.
